#### 1.2 Disclaimer:

For monitoring and administering the claim management process of **Chikungunya Fever** for NHA shall be following these guidelines. This document has been prepared for guidance of PROCESSING TEAM and TRANSACTION MANAGEMENT SYSTEM of AB PM-JAY for the claims of procedures mentioned above. The hospitals can also refer to this document so that they have the insight on how the claims will be processed. However, this document doesn't provide any guidance on clinical and therapeutic management of patient. In that respect the hospitals and physicians may refer to any other relevant material as per the extant professional norms.

### **PART I: GUIDELINES FOR CLINICIANS AND HEALTHCARE PROVIDERS**

#### 1.1 Objective:

The purpose of this section is to act as a guidance & a clinical decision support tool for the clinicians in deciding the line of treatment, plan clinical management of patient and decide referral of cases to the appropriate level of care (as required) for treatment of patients under PMJAY and selection of corresponding Health Benefit Package.

It will also serve as a tool for hospitals to determine and submit the mandatory documents required for claiming reimbursement of health benefit package under PMJAY.

#### 1.2 Clinical key pointers:

Proceed with Chikungunya Fever only if diagnosis made is backed by clinical manifestation is a debilitating, but non-fatal, viral illness that is spread by the bite of infected mosquitoes. It

resembles dengue fever.

- a. Fever with chills and Rigors
- b. Headache
- c. Muscle pain
- d. Joint swelling
- e. Rashes

In addition to above symptoms following additional clinical symptoms may be present in the pediatric patients

- a. Photophobia
- b. Retro-orbital pain
- c. Vomiting
- d. Diarrhoea

### 1.3 Mandatory documents- For healthcare providers

Following documents should be uploaded by the concerned hospital staff at the time of pre-authorization and claims submission:

Mandatory document	Chikungunya Fever
<b>i. At the time of Pre-authorization</b>	
a. Clinical Notes including evaluation findings, indications for the procedure, and planned line of treatment	Yes
b. CBC report	Yes
c. IgM - ELISA test reports for Chikungunya	Yes
<b>ii. At the time of claim submission</b>	
a. Detailed Indoor case papers (ICPs)	Yes
b. Post procedure CBC report	Yes
c. Detailed Discharge Summary	Yes

## **PART II: GUIDELINES FOR PROCESSING TEAM**

### **PART III: GUIDELINES FOR TRANSACTION MANAGEMENT SYSTEM (TMS)**

3.1 **Objective:** To enable setting up of cross check mechanisms/rule engines within the IT platform (TMS) to ensure compliance with STGs and to prevent fraud / abuse of the Health Benefit Package.

3.2 **Below mentioned are the scenarios where a provision would be built in TMS for pop-ups:**

- I. Is the IgM - ELISA test positive? Yes

Till the time the functionality is being developed, the processing doctors shall check the above manually.
