

Guidance document for processing PM-JAY packages

Acute Viral Hepatitis

Procedures covered: 1

Specialty: General Medicine, Pediatric Medical Management

| Package name | Procedure name | HBP code | 1.0 | HBP code | 2.0 | Package price |
|-----------------------|-----------------------|---------------------|-----|----------|-----|---------------------------------------------------------------------------------------------------|
| Acute viral hepatitis | Acute viral hepatitis | M100022, M200033 | | MG012A | | General Ward- 1,800 HDU – 2,700 ICU without ventilator– 3,600 ICU with Ventilator– 4,500 |

ALOS: 3-5 Days

Minimum qualification of the treating/operating doctor:

Essential: MBBS

Desirable: MD / DNB equivalent (in General Medicine, Pediatric Medicine)

Special empanelment criteria/linkages to empanelment module- None

Disclaimer:

For monitoring and administering the claim management process of **Acute viral Hepatitis**, NHA shall be following these guidelines. This document has been prepared for guidance of PROCESSING TEAM and TRANSACTION MANAGEMENT SYSTEM of AB PM-JAY for the claims of procedures mentioned above. The hospitals can also refer to this document so that they have the insight on how the claims will be processed. However, this document doesn't provide any guidance on clinical and therapeutic management of patient. In that respect the hospitals and physicians may refer to any other relevant material as per the extant professional norms.

PART I: GUIDELINES FOR CLINICIANS AND HEALTHCARE PROVIDERS

1.1 Objective:

The purpose of this section is to act as a guidance & a clinical decision support tool for the clinicians in deciding the line of treatment, plan clinical management of patient and decide referral of cases to the appropriate level of care (as required) for treatment of patients under PMJAY and selection of corresponding Health Benefit Package.

It will also serve as a tool for hospitals to determine and submit the mandatory documents required for claiming reimbursement of health benefit package under PMJAY.

1.2 Clinical key pointers: Refers hepatic infection by the hepatotropic virus's hepatitis A–E.

- a. Low grade fever
- b. Anorexia
- c. Nausea and Vomiting
- d. Fatigue
- e. Malaise
- f. Arthralgias
- g. Headache

- h. Photophobia
- i. Dark urine, yellow tint to sclera and clay colored stool may be noticed from 1-5 days

1.3 Mandatory documents- For healthcare providers

Following documents should be uploaded by the concerned hospital staff at the time of pre-authorization and claims submission:

| Mandatory document | Acute Viral Hepatitis |
|--------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| i. At the time of Preauthorization | |
| a. Clinical notes detailing examination findings, previous surgery/procedure, follow-up visit details, investigations, Planned line of treatment | Yes |
| b. USG Whole Abdomen | Yes |
| c. LFT (Liver function test), Serum Bilirubin | Yes |
| d. Serological test for hepatitis | Yes |
| ii. At the time of claim submission | |
| a. Detailed Indoor case paper along with treatment details submitted? | Yes |
| b. Post treatment LFT (Liver function test), Serum Bilirubin | Yes |
| c. Detailed discharge summary | Yes |

PART II: GUIDELINES FOR PROCESSING TEAM

PART III: GUIDELINES FOR TRANSACTION MANAGEMENT SYSTEM (TMS)

3.1 Objective: To enable setting up of cross check mechanisms/rule engines within the IT platform (TMS) to ensure compliance with STGs and to prevent fraud / abuse of the Health Benefit Package.

3.2 Below mentioned are the scenarios where a provision would be built in TMS for pop-ups in cases of acute viral hepatitis:

- a. Was the serum bilirubin level above 2.5 mg/dl? Yes
- b. Serum aminotransferase exceeding 400U/L? Yes

Till the time the functionality is being developed, the processing doctor shall check the above manually.
